### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The cited prior art fails to teach the claimed invention alone or in a combination.

The claimed invention is a method of automated data mining using a domain-specific analytic application for solving pre-defined problems comprising populating the input schema, production training a pre-defined data mining model and production scoring the input data. The method further comprises scheduling these steps.

The cited prior art in general teaches data-mining using analytic application but fails to teach production training and production scoring in combination as claimed. Therefore the invention as claimed is allowable over the cited prior art.
